# **HDMI EXTENDER VIA ONE CAT6/7**

# Extend an HDMI LCD display monitor up to 200 feet away from the source.

#### **XTENDEX® ST-C5HDMI-150 Local and Remote Units**

### **Features & Applications**

The XTENDEX® HDMI Extender transmits digital video and audio signals up to 200 feet from an HDMI source. Each video extender consists of a local unit that connects to an HDMI source (Blu-Ray player, satellite receiver, etc.), and a remote unit that connects to an HDMI display. The local and remote units are interconnected via one CAT6/7 solid cable.

Optional daisy-chain receivers allow you to extend one video source to multiple displays and to reach longer distances. The daisy-chain receivers are available in one-output and three-output options.

- Transmits an uncompressed HDMI signal over one CAT6/7 cable.
- Supports HDTV resolutions up to 1080p and computer resolutions up to 1920x1200.
- Compliant with HDMI 1.2 and HDCP 1.1 standards.
- Supports the DDC2B protocol.
- Only one power supply is necessary to power both the local and remote units.
